

The Stencil Specialists

Demonstrations during the Show

Julie will be demonstrating the different techniques for using stencils continuously during the day.

Most people are familiar with some of the basic techniques such as simple stenciling and dry embossing using a light box but if you watch her during the show she will teach you how to use Embossing Medium with glitter/flock, micro beads and Flower Soft.

Jac paper and stencils are old friends but Julie will show you how to use two stencils together to create beautiful cards on Jac paper with a mixture of glitter and flock. There are so many ways to use stencils and Dreamweaver stencils are different to Lasting Impressions and are meant to be used in different ways. Julie will show you the differences as well as the similarities between the two brands. She promises you won't be bored and you certainly will look at stencils in a different light when you find out how versatile they can be in creating cards as well as scrapbook pages.

Julie is pictured here with the Dreamweaver girls at CHA Trade Show in Anaheim 2007. She is the one third from the left in the white shirt.

Workshops Wednesday 29th July 2009

9:30am – 12:30am

1:30pm – 4:30pm

Cost: \$40.00 per person, per workshop.
This will include an entry ticket into the show.
Morning/afternoon tea provided.

The closing date for enrolling is Friday 24th July.

The morning session will include the basics such as dry embossing, colouring with ink, paper sanding, Jac paper with glitter/flock, embossing medium.

The afternoon session will expand on the basics and how to combine them.

Please bring your own tools including-

- embossing tool
- craft knife
- scissors
- angled palette knife
- ruler
- paper trimmer
- score board
- glitter tray
- pricking tool
- low tack tape
